

Sharps Meeting August 26, 2024

Attendees: Tom Swan, Jerry Hendricks, Pam Goffinet, Bill Ayers, Bud Moore, Mary Voshell. – Recording Secretary

We are financially sound with an insurance payment due in September. Checks received for Haggard monument and Cann stone cleaning.

Base for Haggard monument installed on Friday August 23, by Ted Kusters, ABBA Monuments. Mary received several compliments on how nice the area is and how “well kept” it looks from several visitors she had contact with while on site that day.

Solar lights have been installed on the fence in two locations. No test has been done after dark, but it is assumed they are functioning properly and no additional deer impalements have occurred.

Nathan is doing a good job mowing and trimming, but he will be reminded that he should try to avoid blowing grass onto the headstones. If this is not practical, perhaps he could pass through with a blower to keep them clean. Mary will have further discussion with him on this topic. He is interested in the keeping the job for next year.

Jerry provided photo of John Mackie stone with a large crack that was missed by all during recent repairs. Mary will contact Lloyd's for advice and get a price on repair.

Jerry removed a tree behind the Cline monument, row 14, lot 16 that had been planted and was overgrown. A complaint was received about this on the website.

Pam received a nice thank you card from Emily Woodson Panino, North Carolina, who is the great granddaughter of David Wherry, Revolutionary War Patriot. Right to Interment document was created and sent to her relative since there was space available in the family lot.

H cornerstones have been ordered for Houston lot sale and will be picked up by Mary when complete. Installation will be scheduled at that time. Bill has a set of L stones and Jerry has a set of D stones.

Signs will be created and posted at both gates indicating that the site is closed from dusk to dawn and we are not liable for any injury that may occur. The website will be included so unsafe conditions discovered can be reported.

Rules and regulations document needs to be updated. This will be provided to lot buyers in the future.

Next Meeting Monday September 23 @ 7pm
